Good evening Zenith, i just opened an account with you and the processes involved were seamless and wow even though it was done online. The only aspect i had difficulty with is the mobile app. After successful registration, i was told i needed to register my device. I downgraded my zenith mobile app but couldnt login because of the existence of a new mobile app

version. I got confused initially until i read through some comments posted here. Please, grant us access to the former app.

Maybe if we all report this app on Google play store for fraud and scam, Zenith bank will sit up. Illegal deductions from account, otp takes hours to come, I get debited for airtime and data without receiving it, failed transactions that never get reversed, network issues that leave you stranded all day, etc. Look at the comment section on their social media pages, Zenith Bank is a mess, I do not recommend Google play store should just take down this app let us rest.:

I changed device and on logging in on the new device, I was asked to register my device. I saw 2 options PIN+TOKEN & Card detail, so I used Card detail but I got "only hardware token can be used to authorize this request". On contacting Zenith Bank, I was told to go to any Zenith Bank branch to get hardware token for #2,500 or download e-token for #1,500. Please fixed the use of card details for new device registration.:

I think Zenith Bank need to work on themselves. Your bank is most worst bank in term of Network &hacking. boys quickly have access to someone account without owner authorised. When you are credited in the morning you will receive alert in the evening and the money will not drop to your account even though you check your balance. In end here I think the bank need to work on IT department something is wrong somewhere. Even App is not functioning well as earlier complained by others user .:

If you are incapable of rendering e-services to your customer, then quit; not denying access to your customers hard earned money. You can spend billions of naira annually marketing to gain more customers but you can't spend a dime to upgrade your services, and meet with the growing demands of your customers. The Nigerian sickness indeed. Just like I did with access bank, which from recent findings is better than zenith bank, I will dump you for other less saturated banks. So annoying ?.:

Zenith banks are one of the worst bank in Nigeria. Has a federal or state government workers whose salary account is domicile in their bank,they will not/never grant you any loan. And your salary account is with them. They are very useless.

Reason many federal government workers are moving the salary account away from Zenith and going to Get. I have a salary account with the since 2015 they have snevwr granted us loan,if I apply they will be giving stupid story and excuses.:

Zenith bank,Why was I debited for stamp duty twice within 2 weeks apart on the 18th July 2020 and 1st August 2020????

This is fraud. Iv never seen where stamp duty is debited every 2 weeks. I demand that my money be refunded. #750 was

taken on the 18th July and #700 on the 1st August. This is crazy Zenith bank. If I don't get a reversal within 48 hours I

swear I will stop banking with Zenith. I thought Zenith was prestigious. Found out they are cheats. I am waiting for a

reversal:

Zenith bank app just became a shadow of its former self. It's very disheartening to say the least of how your services has dropped recklessly. The disgusting part is how it still doesn't seem like y'all care about it or effect visible positive changes.

I've been with this bank since 2005, it used to be my go-to bank for transactions until this very moment. Now, if your app isn't killing transactions at point of payment, your card is keeping you stranded and embarrassed in front of a cashier.:

Kayode Adewuyi:

Score - 2:

Date and time - 1654014635000000000:

This app has become a shadow of itself lately, it's a difficult to login and make a transaction even ordinary airtime purchase fails.:

Richard Idika:

Score - 3:

Date and time - 1663869687000000000:

I've been enjoying this app. Till I formatted my phone. Now I can't login to my account. App says I have been blocked. And customer care is not responding to my email.:

There suppose to be a Receipt send out option from the transaction history. E.g if a person send money to me, i should be able to click and view it through the HISTORY list to get more clearer detail of the transaction and create a receipt of it for sending to others if there is need for that just like when a person send transfer.:

I need help. This app will no longer work on my galaxy Note 10 plus. It just keeps loading and never even gives an error message. I have contacted customer care 4 times including by mail but no one has been able to help me. I have cleared data and cache, reinstalled, restarted, done everything I know how. It is the only app that won't work on my phone:

Kazeem Taofeeq:

Score - 5:

Date and time - 1607619540000000000:

This app has been working quite nicely until recently I would log in and it takes forever to open, often times it just keeps running like the it couldn't connect to the server or something else. It's so annoying that the once wonderful app has become lagging.:

Honestly, since you updated the app, it has not been smooth as it was before. In most cases it refused to connect giving error message: network not available. Reconnecting.... And remain like that until I have to switch off the phone before exiting. I have not enjoyed it at all. This app has not connected for the past three days now. You guys need to review this app.:

A Google user:

Score - 1:

Date and time - 1569873312000000000:

Your app is the worst bank app..almost everyday one cannot login and this thief cbn governor wants us to be doing transfer with this kind of stressful app..:

A Google user:

Score - 4:

Date and time - 1567772171000000000:

I love every other things about the app. updating, what I don't like about it is, I only have my current balance, there no

balance for every transaction, do something about it is very important.:

the new update is terrible; the worst app so far. can't even load to log in. its busy doing reconnecting, when other apps are opening, even the play store. I regretted updating the app. pls can we just have the options of using the old app that was working just fine? pls I beg u. plss what I usually do in one minute, now I can't even make payment on a timeline for a job. very sad:

A Google user:

Score - 1:

Date and time - 1564155176000000000:

Why are there so many negative reviews, and you've decided to respond to the good ones. To be honest, this update is TRASH. The User Interface seems appealing from a UX/UI designer's point. I wish I had never updated the App, the prompt "Authorization Failed" keeps showing on every transaction. Should have listened to my guts, I hate updates. Please I need a

downgrade.:

A Google user:

Score - 1:

Date and time - 1564190340000000000:

Most other banks' apps allow you to view a transaction receipt on the app (not email), showing full details of the transaction.

So you guys spent millions to build a whole new app but your engineers couldn't include this simple but most vital feature. A

huge failure I must tell you!:

A Google user:

Score - 1:

Date and time - 1563497444000000000:

What happened? you had a very effective app and you refurbished it and it has become very difficult to use. could you

please make the previous one available for download. The refurbished one is not helpful to me at all. I can't make transfers,

I can't load credit. Its frustrating. please make the previous app available for download. let those who need it get it back.

Thank you.:

I love the new upgrades on the app, mobile banking made easy, I'm so happy ? the new App is awesome that's why Zenith

Bank is the best:

A Google user:

Score - 5:

Date and time - 1565454072000000000:

The app liberates U from having to visit a branch or even use a computer, U can pay bills make purchases get Ur balance

make transfers en So many other transactions. Thumbs up Zenith Bank:

A Google user:

Score - 3:

Date and time - 1564862914000000000:

Great new UI! please change the UX do that transaction history does not require this painfully long process of filtering the

months and please sort transactions chronologically and also we don't need email for every login. Thanks.:

A Google user:

?:

A Google user:

Score - 1:

Date and time - 1534988371000000000:

If I could I will give this app a zero rating I was helpless during the holiday and needed to buy airtime and do some transfers

all to no avail. I could neither use my mobile ussd nor the mobile app. Zenith bank is completely hopeless not to talk of their customer care, the lady I chatted with online ignored me for minutes and didn't even bother to help me find a solution.:

A Google user:

Score - 1:

Date and time - 1533643513000000000:

This app version is too old compared to other banks I just opened a zenith bank account last week and downloaded their app, imagine my surprise when i realised they don't have biometric log in? So many errors while trying to do one thing or the other! From a bank that claims to be the best, I'm woefully disappointed????:

A Google user:

Score - 1:

Date and time - 1550014829000000000:

highly disappointed in this app, I've been trying to log in to the app for months now yet it keeps telling me "your request was not processed, kindly contact admin". seriously I'm disappointed in the app:

A Google user:

Score - 1:

Date and time - 1564479200000000000:

can't log in again. register device and keeps saying system can't process, try again. now I can't make urgent transaction. this is horrible. please fix on time abeg:

A Google user:

Score - 5:

Date and time - 1565049656000000000:

the previous app was ok, but this new update is something undescrivable. zenith bank should work to improve and make it ready functional.:

A Google user:

Score - 4:

Date and time - 1533499307000000000:

Was not able to print my account statement. This feature should be included so account statement can be view, specify period and export to other format that is printable.:

A Google user:

Score - 1:

Date and time - 1535220888000000000:

It's frustrating anytime I want to make transfer. You can hardly make 5 successful transactions without the app crashing. It will show network error and I will be debited. Any little fluctuations in network it log you out.:

A Google user:

Score - 1:

Date and time - 1536103881000000000:

Very Terrible lately.. I'm uninstalling till you improve. Can't load bet funding, can't login. Always replying error and closes at

interval:

A Google user:

Score - 3:

Date and time - 1532472610000000000:

It's a great app, BUT I THINK IT WILL BE BETTER WITH THE INTRODUCTION OF
FINGERPRINT FUNCTIONALITY.. IN FACT, I NEED FINGERPRINT MORE THAN ANY OTHER
THING:

A Google user:

Score - 3:

Date and time - 1536511986000000000:

I think you should improve in the App features.. Its will be nice if u can add transaction history, so we can trace our
transactions.:

I had to write a review. The User interface of this app is the worst that

exist anywhere. I thought the functionality of it will knock out its whack

UI. But No, they describe their own error messages like its your fault e.g

Network Error, activate your mobile no...when I need to try ten more times

to login successfully. Good side, my transactions have not stuck yet.

Please Zenith catch up. Thanks:

A Google user:

I updated the APP few days ago but I can't log on through the QWERTY it

keeps asking for password and token whereas I'm non internet banking user I

normally login with just my digits password ..my question is, how do I

login with my 6 digits password only because I don't use token?:

A Google user:

Score - 2:

Date and time - 1525294734000000000:

The app is easy to use but I abandoned using it due to the fact that it

doesn't generate Receipt when payment is made and the message that states

the transfer is successful also has the account balance, hence couldn't be

screen grabbed. They should work on that please.:

A Google user:

Score - 3:

Date and time - 1518504735000000000:

Please make the 'scan to pay' option available on the new app. Keep getting messages of the updated apl with it buh cant

see the option once updated:

A Google user:

Score - 1:

Date and time - 1524756052000000000:

This app is very poor.... I expected more from this Bank Pls update this

app You're making me wish I had an Access Bank account instead because that

app is beautiful compared to this garbage you guys call an app I even had

to come back and check to see if this was the official Zenith Bank app cuz

it looked like a very fake thing Pls update this app It is SEVERELY outdated:

A Google user:

Score - 2:

Date and time - 1535878829000000000:

Pls work on the app. The response I received is "account restricted" despite successful transactions on ATM. Besides, The

interface need improvement:

A Google user:

Score - 2:

Date and time - 1525050199000000000:

Well done programmer, but must I send d code before transferring. I have to

write out the code before I can send. It should be made easier:

A Google user:

Score - 5:

Date and time - 1516940075000000000:

Dis app is so good, love everything about it. The travel and leisure seems a little bit terrible on android. It shows very well on my iOS. Pls work on this so that booking of hotels and airlines can be more easier.:

A Google user:

Score - 2:

Date and time - 1517006240000000000:

Your updates makes the app too slow to login, it takes minimum of 2 minutes to login, please work on it.:

A Google user:

Score - 1:

Date and time - 1523841215000000000:

This version is outdated new one is required please do it. Ensure the next version is more attractive to customers:

A Google user:

Score - 1:

Date and time - 1522551301000000000:

I have not been able to operate /activate mobile banking despite all efforts to do this. I want an easy way out.:

A Google user:

Score - 4:

Date and time - 1530145357000000000:

Nice app for ebanking. However, the #100,000= maximum daily transfer

remains a challenge to users like myself who finds the token inconvenient

to carry around:

A Google user:

Score - 3:

Date and time - 1519953078000000000:

This app is giving me trouble, always saying I should register my device, even when I unstalled the app and install again.

After a few days of another registration, the app will stop working and start saying *Register your device* please something needs to be done, I'm tired of everyday register your device in the same phone in the same app.:

A Google user:

Score - 5:

Date and time - 1521135696000000000:

The application is not cost intensive.Especially with charges not unless when I want to transfer cash..In all is very effective..:

A Google user:

Score - 3:

Great app dats made my life easier to transfer and receive funds but it has a FUNDAMENTAL FLAW. When I type in the Acct. no of someone to whom I want to send money to, no confirmation of the Acct. name is asked for. Just one wrong number typed in error and I could send money to the wrong person. To get it back go be wahala. So please put in a next step for Acct. name confirmation before money's sent.:

Can't remember when last I went to a bank, u can do virtually all transactions easily at your fingertips. I have 2 questions: (1.) Pls my transaction history does nt show more than 3 transaction on my android phone bt shows all on my iPhone (2.) I can't setup a standing order in recurring payment (it only pays once). Pls help rectify this issues:

I actually prefer using the mobile app to the desktop lbanking platform. It's so user friendly. You can transfer to other banks without saving the beneficiary (and then you get the prompting to save or not which I love since some transfers are one-off) so it saves you having to come back and delete the beneficiary. As my children will say "Good job!":

A Google user:

Score - 4:

Date and time - 1564986968000000000:

Eventually after days of frustration, I was able to get the app running. I had to uninstall and reinstall it then things started running as they were. The app is really nice and smooth though taking longer time to load than the old one. The developers need to work on the red colour that appears behind the logo at first launch, it's kinda scary, maybe make it more lighter or do white and interlace it with red. Outside that you have a perfect app.:

I guess you guys should make a feature of complaints available so we dont have to walk-in all the time we have to complain about something or make a request. Comparing with GtBank app, I think its more or less supposed to be a one stop bank..... I need to be able to purchase my flight tickets at discounted price and all other things like cinemas and stuffs.

Thank you:

There's no issue regarding not been able to confirm acc details before your transaction is completed, however, there's an automatic update of the acc inform if you select "other bank" (in situation where the acc is not zenith acc), hence there's no flaws on that issue as regard confirmation of acc details, even the previous app has that function. Cheers.:

Well, I have been using this app for close to a year now and its been helpful, provided I'm using the same Sim I used in registering I don't have any challenge at all. I just got a new phone that uses two sims, downloaded d app and logged in and there, I had no problem. Just make sure u r doing the right thing. Its not magic, its technology:

A Google user:

Score - 3:

Date and time - 1441678849000000000:

This is actually a very nice app but the only problem i have is whenever i try to use my second sim to access it i get a message 'please register your device first'. This days alot of people are using a dual sim phone where you can switch your data to any of the sims. Making the app registered to only one sim is a lil boring. Please if you fix in the next update. But generally a very nice app.:

The UI is crisp and clean. Instructions are clear. Of course the user will need a strong internet connection to avoid hitches.

However, I encountered an "Internal Error" upon processing a transaction. Which almost led to a duplication payment. I

received a message from the App that there was a possible duplicate and I should check my balance. Good thing there

wasn't. Overall good App. Needs improvement.:

A Google user:

Score - 5:

This app works perfectly. However, checking balance seems to be a problem. I only managed to do that once since I

installed the app. A new update is needed urgently for balance check on eaZymoney & bank accounts. We also need to check last 3 or 5 transaction on eaZymoney & bank accounts. Oh I think I got it somehow - though not easy since it needs pulling down the letters and refreshing. Great App - needs to score as high as 4.7:

A Google user:

Score - 5:

Date and time - 1384284494000000000:

Mobile Money App at its best. The app is user friendly. The only App that i have seen having just a single interface that allows me do my transactions at ease. Thumps up to Zenith Bank and i will gladly recommend this to my friends.:

A Google user:

Score - 1:

Date and time - 1386035996000000000:

A lot of hidden charges when transferring to other banks. Plus you can't recharge mtn numbers with airtime:

A Google user:

Score - 4:

Date and time - 1389483520000000000:

App is great. Great job' great response. Still can't check balance both on the wallet or my account. More so, a mini statement of account isn't showing yet. Great app from market leader, Zenith Bank.:

A Google user:

Score - 2:

Date and time - 1390696790000000000:

I was unable to check my balance even after holding the N and scrolling down. Its keep telling me NO.00 but when I checked the balance with ATM, I saw my actual balance. Older version is better.:

A Google user:

Score - 1:

Date and time - 1384038962000000000:

As expected, everyone wants my phone number. Another BAD APP. You must look for a way of authenticating people without asking for their phone numbers. We already have enough codes to cram on your ebanking, I think you should be able to adapt them for this mobile app. Asking for phone number (just like Quickteller) is not imaginative at all. The same reason I never bothered with it I'm UNINSTALLING. When you guys find an intuitive way of doing this, let me know.

Otherwise, I'll stick to ebanking on the web:

A Google user:

Score - 4:

Been waiting eagerly for this app to go live in the Major App stores and now it has.... The app is indeed an Industry Leader

....and surely will only get better. Well done !!! Suggestion: I think it'd be best to integrate the merchant and biller codes for

various purchases and bill payments. That would enhance the user - friendly experience generally. ...:
